The sprayer / de-icer for Flexigo 150, tank capacity of 700 liter The CSP's use of liquid de-icing agents is an alternative to potentially environmentally-harmful gritting agents. In dry or slightly humid conditions, and at temperatures down to -6°, this method is particularly suitable for municipal winter road clearance services when consumption of de-icing agents needs to be drastically reduced. The machine stands in: Frankenring 43, 30855 Langenhagen, Germany
